REASONS FOR ALLOWANCE

1. The following is an examiner's statements of reason for allowance:

Claims 1, 5-10, 14-19 and 23-35 are allowable over the prior art of record.

The examiner has found that the prior art of record does not appear to teach or suggest or render obvious the claimed limitations in combination with the specific added limitations as recited in independent claims and subsequent dependent claims. The prior art of record fails to teach or suggest a method and an apparatus for accessing data at a server computer from a client computer connected to the server via a network wherein there is a determination as to whether a file identifier in the URL command request is valid before performing other sequential steps such that if the file identifier is determined to be valid, then retrieving the requested data from the data storage device at the server computer and, furthermore, after retrieving the requested data from the data storage device, then determining at the server computer whether the client computer can access the retrieved data in its retrieved form, and if it is determined that the client computer cannot access the retrieved data in its retrieved form, then automatically converting at the server the retrieved data into converted data that the client computer can access as set forth in the specification and recited in the independent claims and argued by the applicant [see Remarks on Pages 12-13 of Amendment dated 12/22/2004].

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
